

Quick Start Guide

Before you start:

- Make sure the wall/ceiling is strong enough to withstand three times the weight of the camera and the mount.
- For wooden wall/ceiling, wall plugs are not necessary. The product images listed below are for reference only. For more information, visit our website (<http://www.hikvision.com/>).

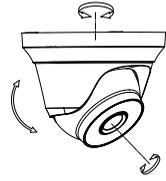

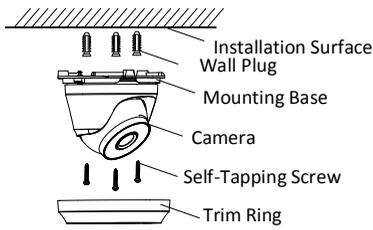

Note:

For cameras with 4-in-1 video output, press and hold the switch button for 5 seconds to switch output signal. Four kinds of video outputs are available: TVI, AHD, CVI, and CVBS.
